

CCAC 2021 3D Competition Bow Divisions

Note: Up to 2 divisions maybe shot on any scheduled 3D shoot day. As long as they are shot on separate rounds and from different coloured shoot pegs.

Senior Divisions – Separate competition for Male and Female Archers.

Open Division (OD)

Any bow that uses any sight or is shot bare bow. The bow may or may not have a magnifying lens or scope, however rangefinder sights are prohibited. Maximum bow draw weight is 80 pounds. No limit to pins or cross hairs. No limit on stabilisers or weights. No limit to the release. Shot from the ORANGE peg, maximum distance is 40m.

Compound Hunter (CH)

Any compound bow with or without a fixed/multi-pinned sight. No magnifying lenses or adjustable sights to be used. Limit of one Stabiliser, with a maximum length of 12 inches radius from where the stabiliser/sidebar attaches, unweighted vibration dampeners are not considered to be stabilisers. No pins set further than 50m. Maximum bow draw weight of 80 pounds. Arrows may have screw in points and must have at least 3 feathers or vanes. Bare bow compound can also be shot in this division. Shot from the YELLOW peg, maximum distance of 35m.

Recurve Open (RO)

Any non-wheeled, single string bow, including; Olympic Recurve, Recurve, Asiatic or Longbow, made from any materials. Arrows may be made from any materials. Finger/String or face walking IS permitted in this division. Must be shot with a bare fingers, glove or finger tab. Maximum bow draw weight of 80 pounds. Shot from the WHITE peg, maximum distance of 28m.

Important Note: Sighted recurves are permitted in this division but must be shot from the YELLOW peg, with a maximum distance of 35m.

Recurve/Longbow (RL)

This division is for; Recurve, Asiatic or Longbows, however, no Olympic Recurves are permitted in this division. Arrows may be made from any materials. Must be shot with a bare fingers, glove or finger tab. Finger/string or face walking is **NOT** permitted in this division. Fingers on the release hand must be touching the arrow nock during the draw cycle. There should not be any markings on the bow or the bow string that could be construed as sight markings. Maximum bow draw weight of 80 pounds. Shot from the WHITE peg, maximum distance of 28m.

Traditional (TR)

This division is for; Recurve, Asiatic or Longbows, made from mostly wood or natural materials, (no Olympic Recurves). Arrow shafts must be made from wood and must have feather fletching. Finger/string or face walking is **NOT** permitted in this division. Fingers on the release hand must be touching the arrow nock during the draw cycle. There should not be any markings on the bow or the bow string that could be construed as sight markings. Must be shot with a bare fingers, glove or finger tab, from “off the shelf” or off the hand, (no additional arrow rests or plunger buttons to be used). Maximum bow draw weight of 80 pounds. Shot from the WHITE peg, maximum distance of 28m.

Juniors and Cubs – Separate competition for Male & Female Archers as well as for Cubs & Juniors

Compound (CO)

Any compound bow with or without a sight, with no limits to the sight. No limits to stabilisers or weights. Sighted Olympic recurves can be used in this division. Cubs shoot from the RED peg, maximum distance of 15m. Juniors shoot from the WHITE peg, maximum 28m.

Recurve/Longbow (RL)

Any Recurve, Asiatic or Longbow. Arrows may be made from any materials. There should not be any markings on the bow or the bow string that could be construed as sight markings. Must be shot with a bare fingers, glove or finger tab. Shot from the RED peg maximum distance of 15m.
